Complete Vehicle Inspection

Over 100 point inspection provides a comprehensive examination of both the interior and exterior of the shuttle body. Not only do we examine the body but we also inspect the chassis to ensure your local chassis repair facility has not overlooked any critical issues.

Oil, Filter, Lube

Oil Changes included per terms of your service agreement

Air Conditioning & Heat Service

Check A/C & Heating systems and clean filters. Inspect coolant system, add conditioner, inspect and clean filters

Brake Service

Inspect brakes, remove wheels, check pads, calipers and hardware.

Substitute Vehicle

We have substitute vehicle(s) available while the services are being performed

Warranty Management

Identify and repair items under warranty

ActivityCARE

This brochure is intended to provide general information about a light and medium duty shuttle vehicle plan offered by BSI LLC. Plan availability, coverage, and details may vary depending on lease and term details and chosen service agreement. Coverage is non-transferable. For more information contact a BSI LLC representative at 877-696-2287
