Additional Option Package (Describe the package in "Manufacturer Offered" column)	Each	0	$0.000			
Grand Total			**AWARD**	$328,608.000		

CONTRACT AWARD

The contract will be awarded to the lowest responsive and responsible bidder by line item.

 EVALUATION

Bids will be evaluated in accordance with Article I-15 of the "Instructions to Bidders". In addition, the state will evaluate the bid based on the total item cost which equals the estimated number of units multiplied by the unit bid price plus the option unit bid cost times the number of units to evaluate (for each option with a quantity) plus the appropriate delivery charge. If estimated usages are unknown a quantity of one (1) will be used for the evaluation. If there is no "delivery charge per mile round trip map mileage rate" supplied or, the calculated value of the delivery charge is less than the minimum delivery charge, the minimum delivery charge will be used for evaluation purposes. The State reserves the right to reject the "per mile" delivery charge or the "minimum" delivery charge if it is determined to be excessive.

Example Calculation:

Total Item Cost = [(vehicle unit bid price) x (estimated number of units)] + [(delivery charge per mile round trip x 300) x estimated number of vehicles]
